

VISION THERAPY & REHABILITATIVE SERVICES

Our offices specialize in children and/or adults with reading problems, closed head trauma and rehabilitative services. For those of you referred for these services, or any patients with any of the following complaints, please fill out completely.

Please mark to indicate if the patient has had or currently has any of the following:

- Head turns as reads across the page
- Loses place often when reading
- Needs a finger or marker to keep place
- Displays short attention span in reading/copying
- Writes up or down hill on paper
- Rereads or skips words
- Uses other hand as a "spacer" to control spacing
- Reverses letters or words
- Confuses letters or words
- Poor reading comprehension
- Blinks excessively while doing near work
- Closes or covers one eye while doing near work
- Makes an error in copying from board to paper on desk
- Holds reading material close
